

Data Analyst Internship - Task 5

Exploratory Data Analysis (EDA) Report

Dataset: tested.csv

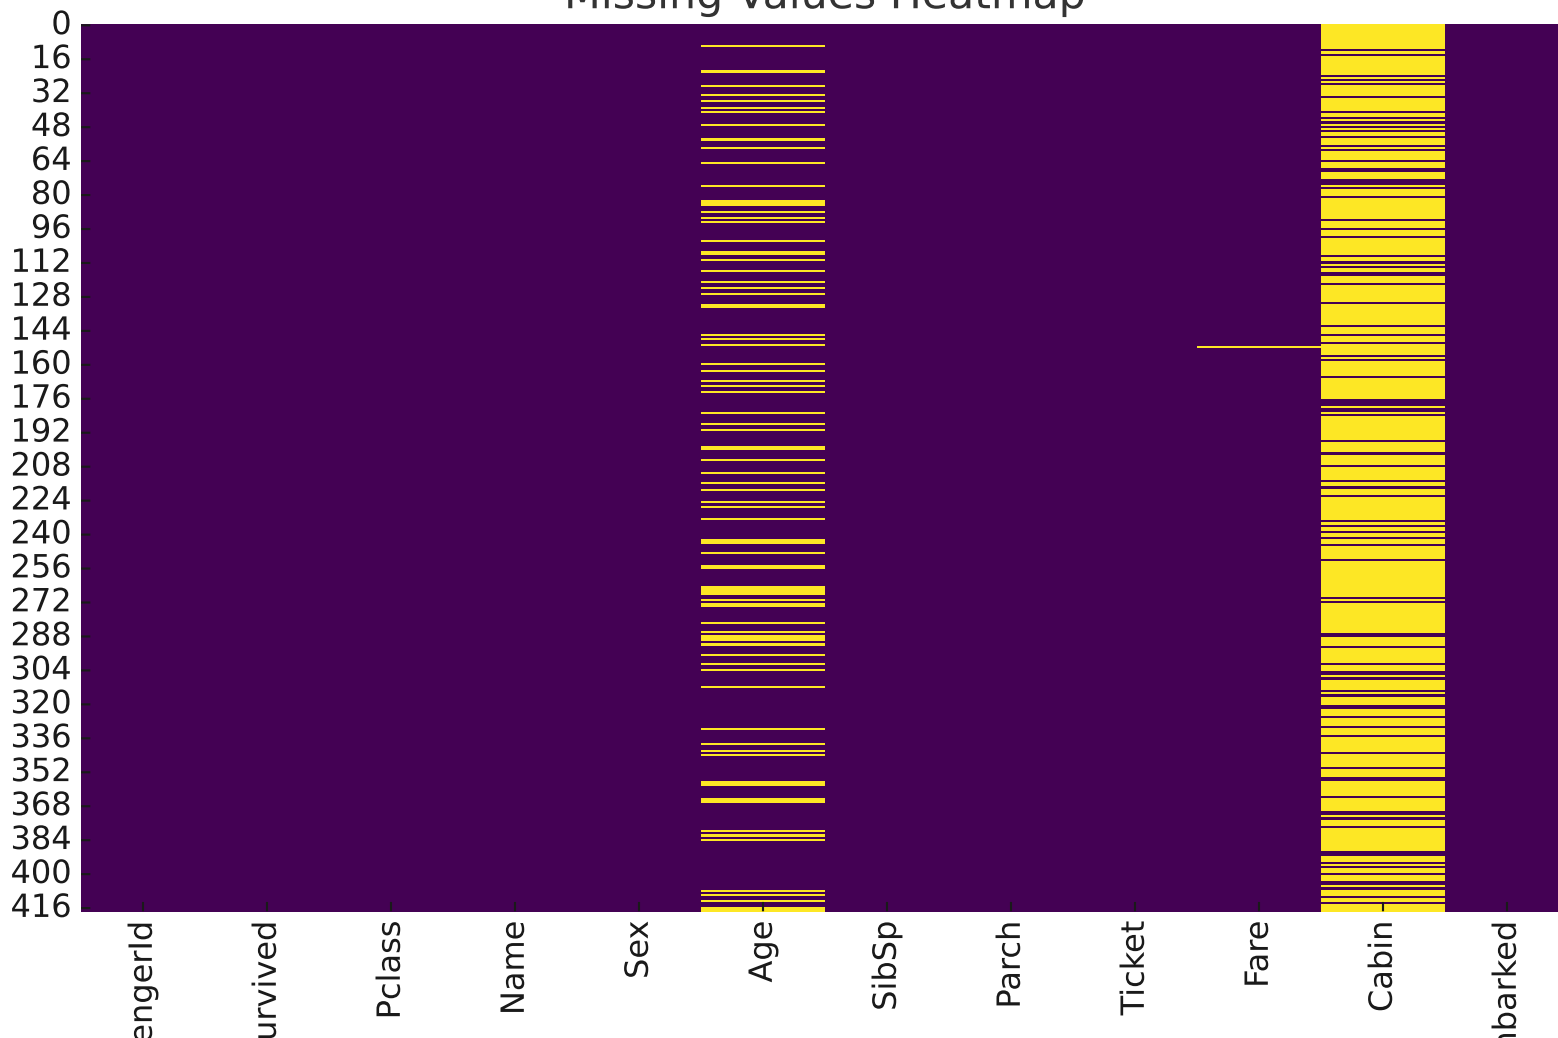

Data Information:

None

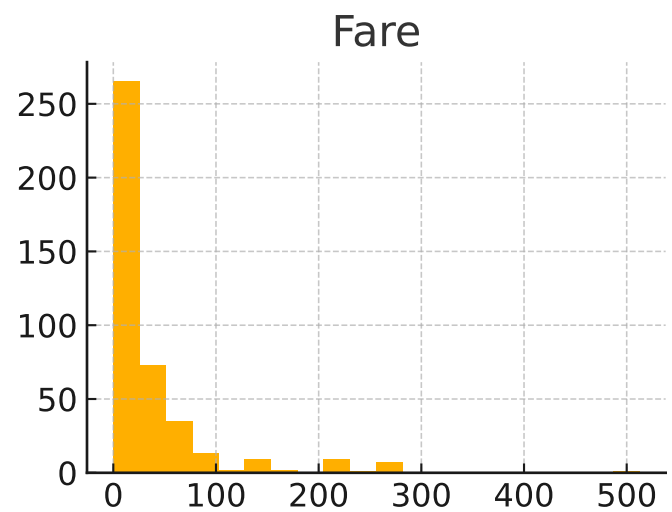

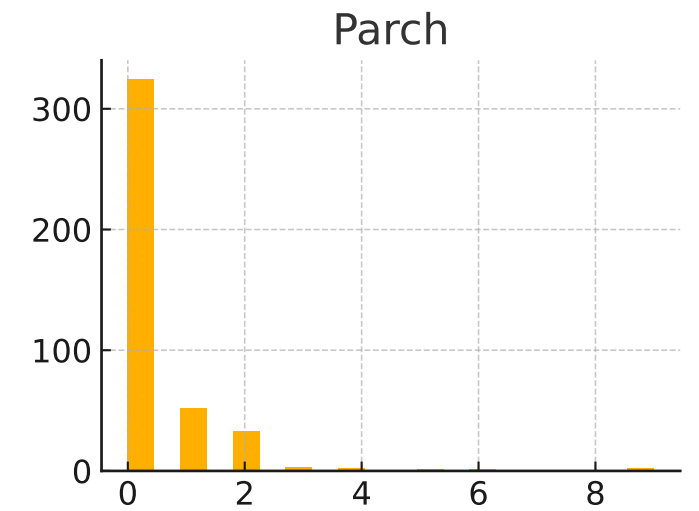

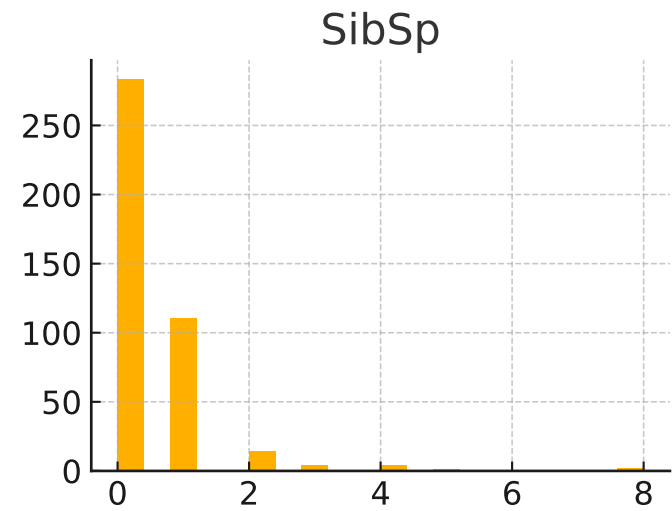

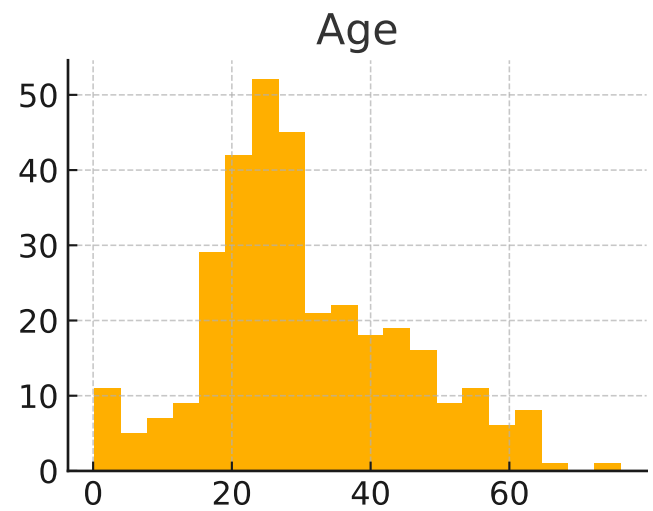

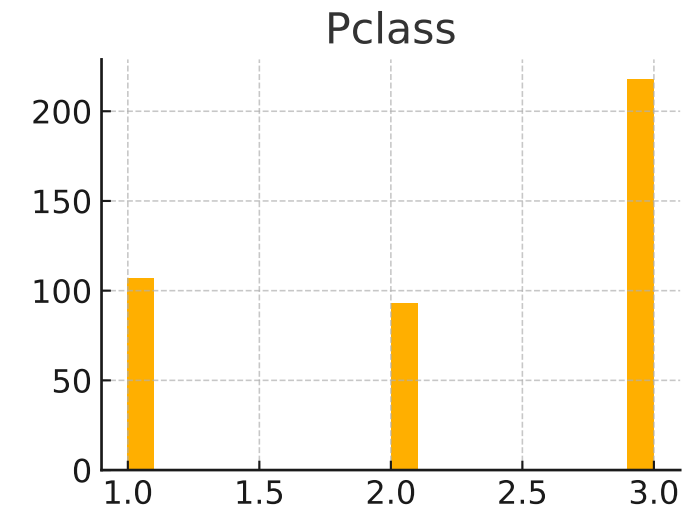

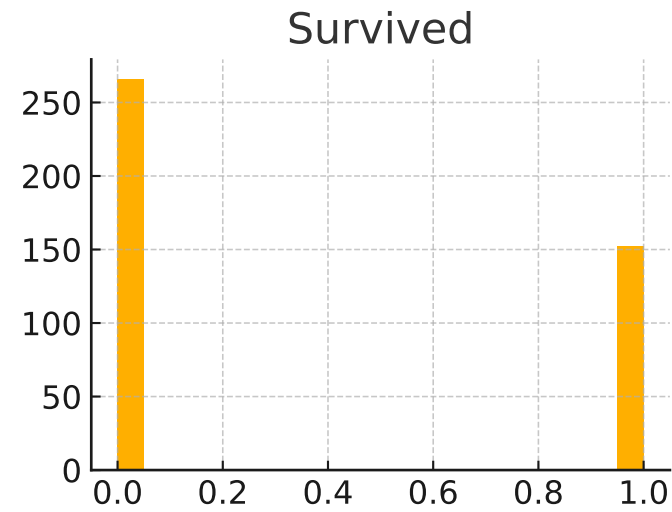

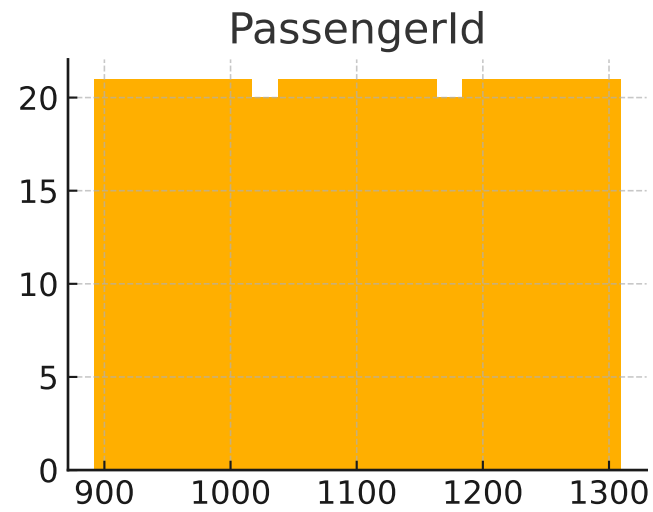

Summary Statistics:

	PassengerId	Survived	Pclass	Name	Sex	Age	SibSp	Parch
count	418.000000	418.000000	418.000000	418	418	332.000000	418.000000	418.000000
unique	NaN	NaN	NaN	418	2	NaN	NaN	NaN
top	NaN	NaN	NaN	Kelly, Mr. James	male	NaN	NaN	NaN
freq	NaN	NaN	NaN	1	266	NaN	NaN	NaN
mean	1100.500000	0.363636	2.265					

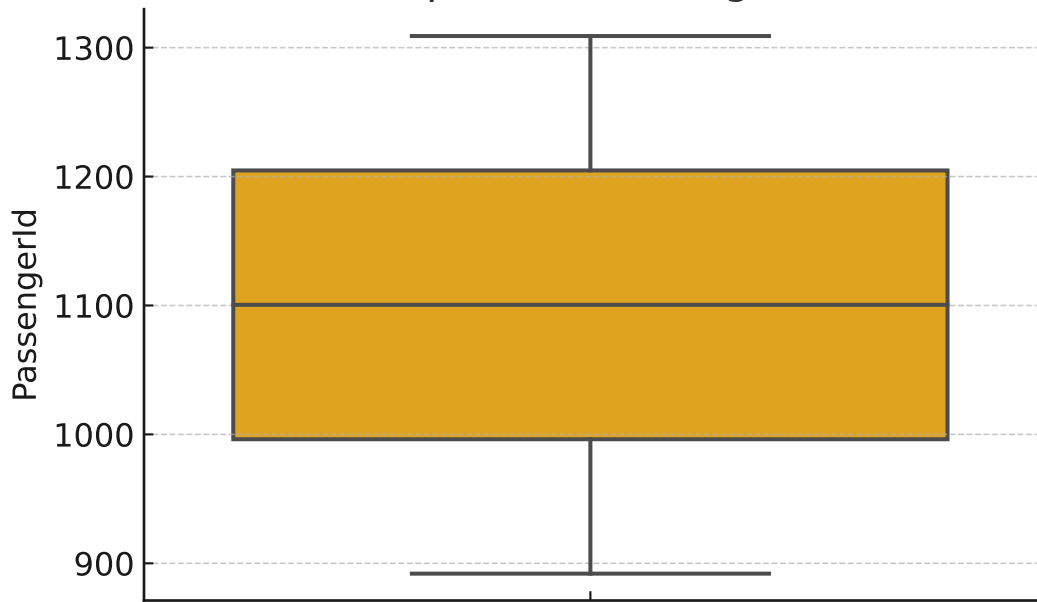

Missing Values Heatmap

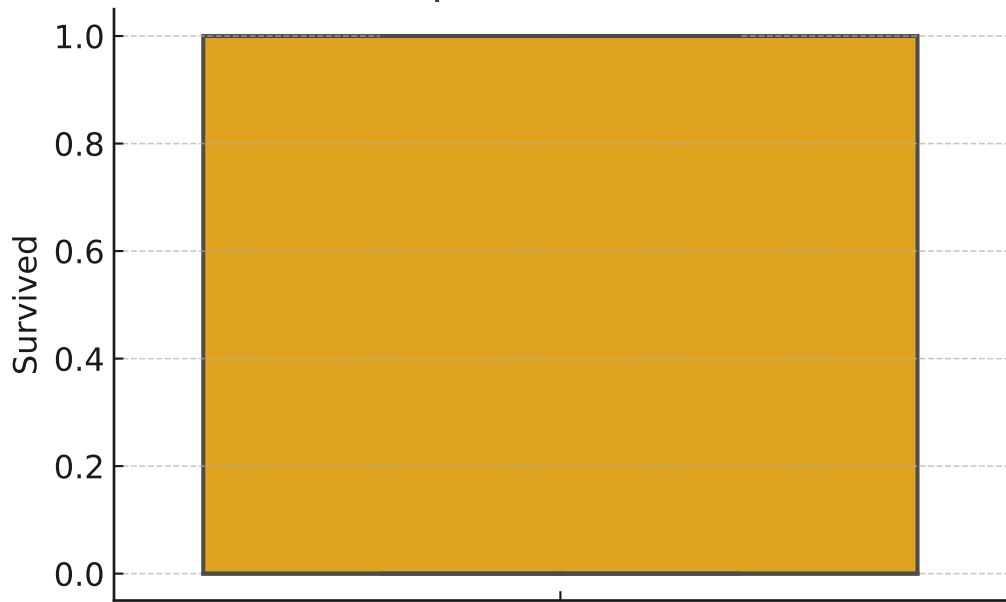

Histograms of Numeric Features

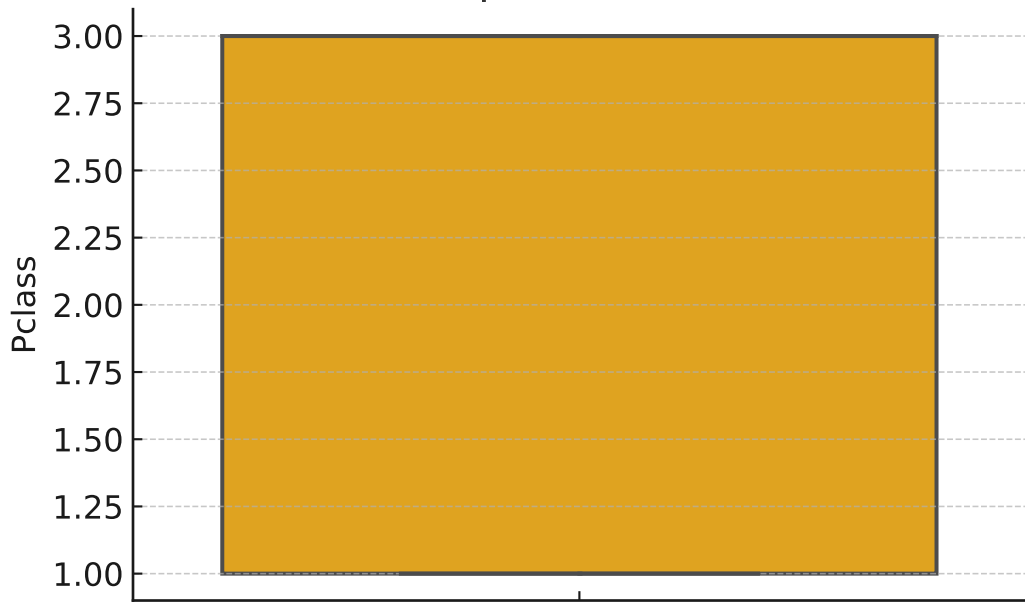

Boxplot of PassengerId

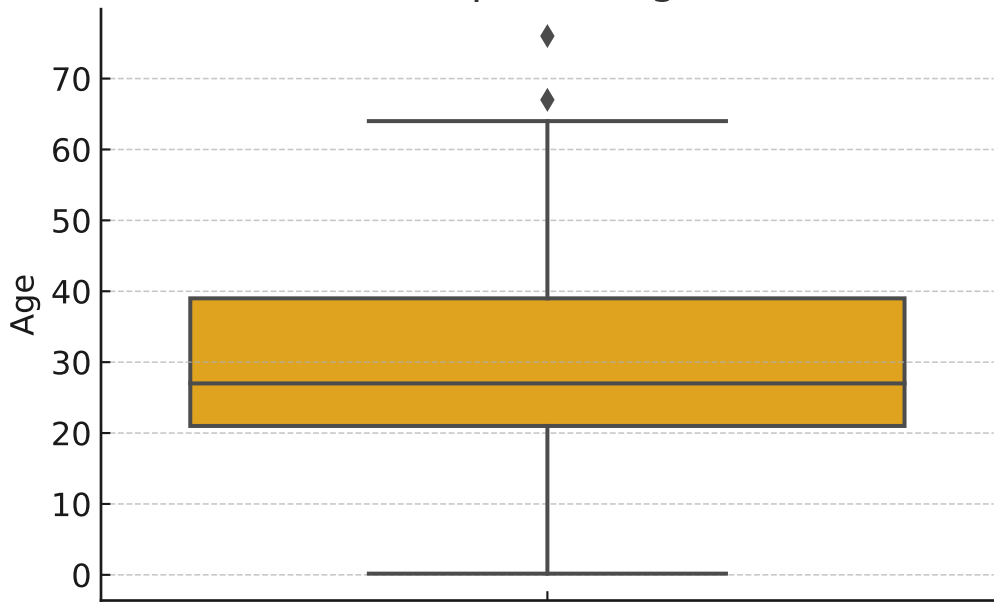

Boxplot of Survived

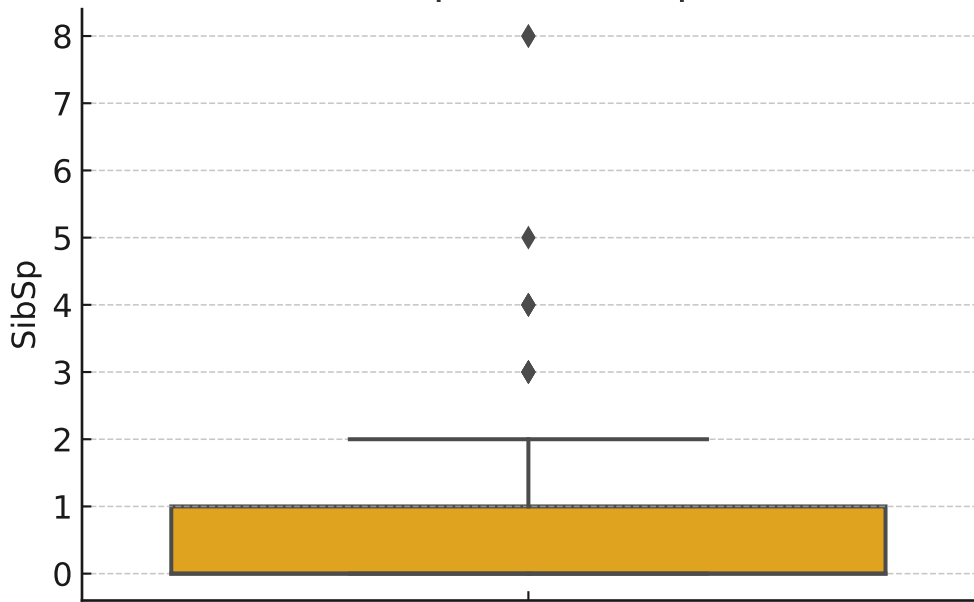

Boxplot of Pclass

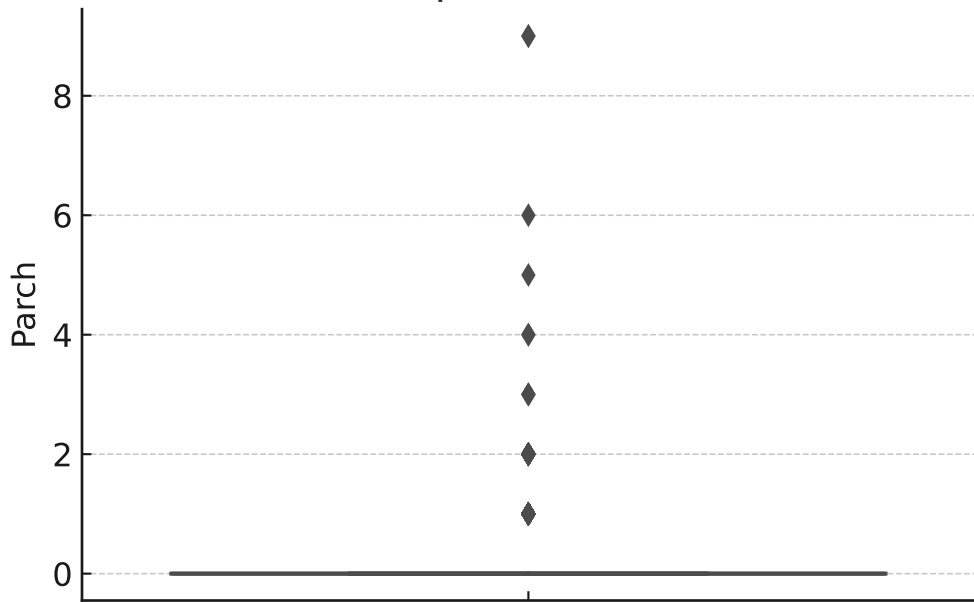

Boxplot of Age

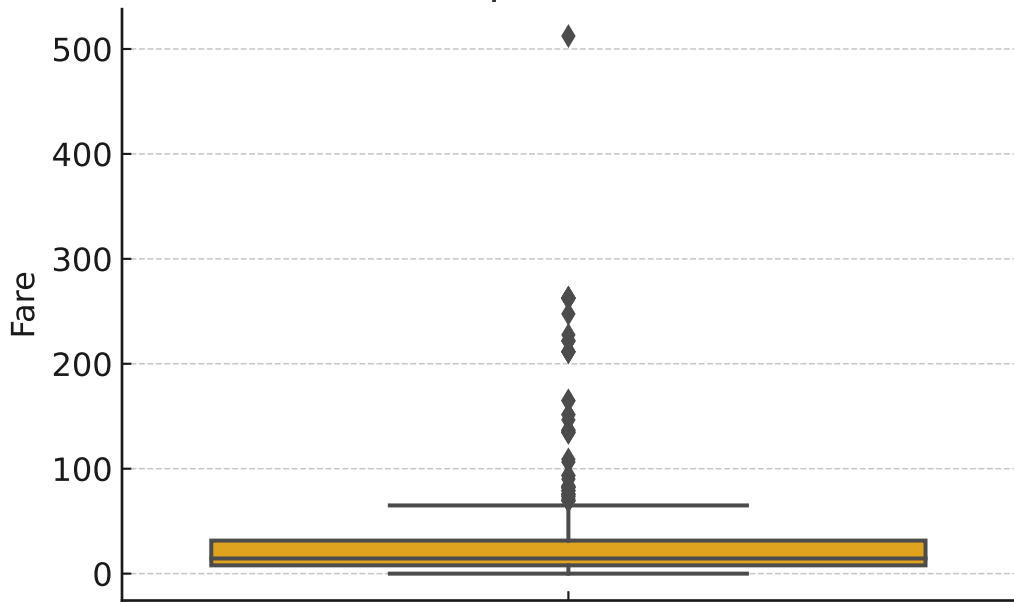

Boxplot of SibSp

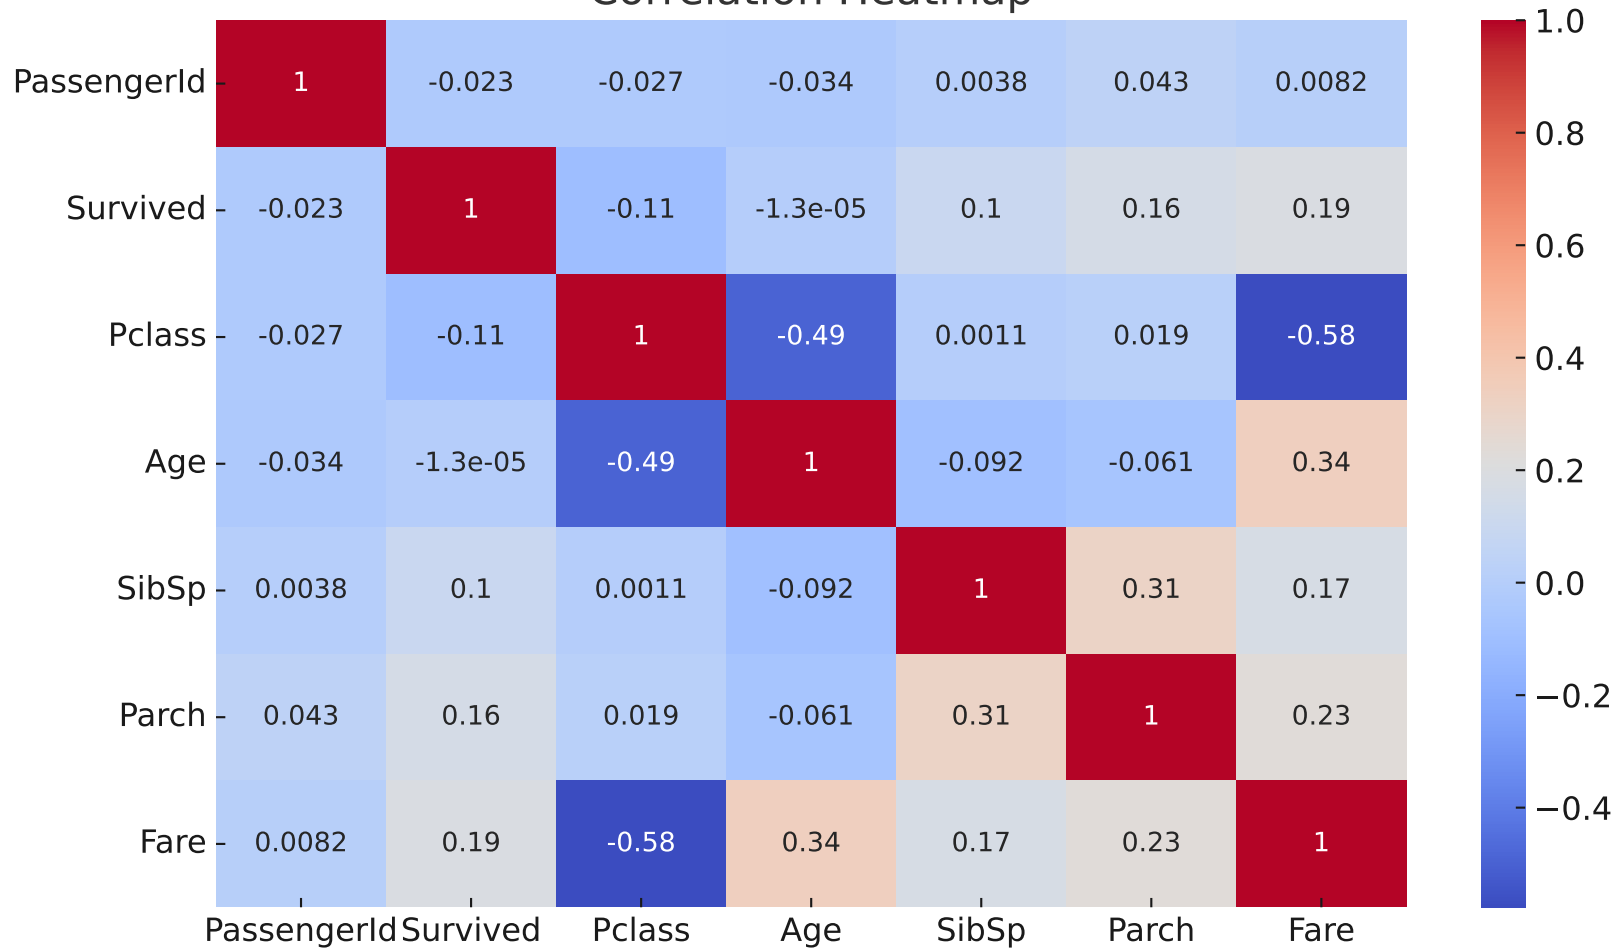

Boxplot of Parch

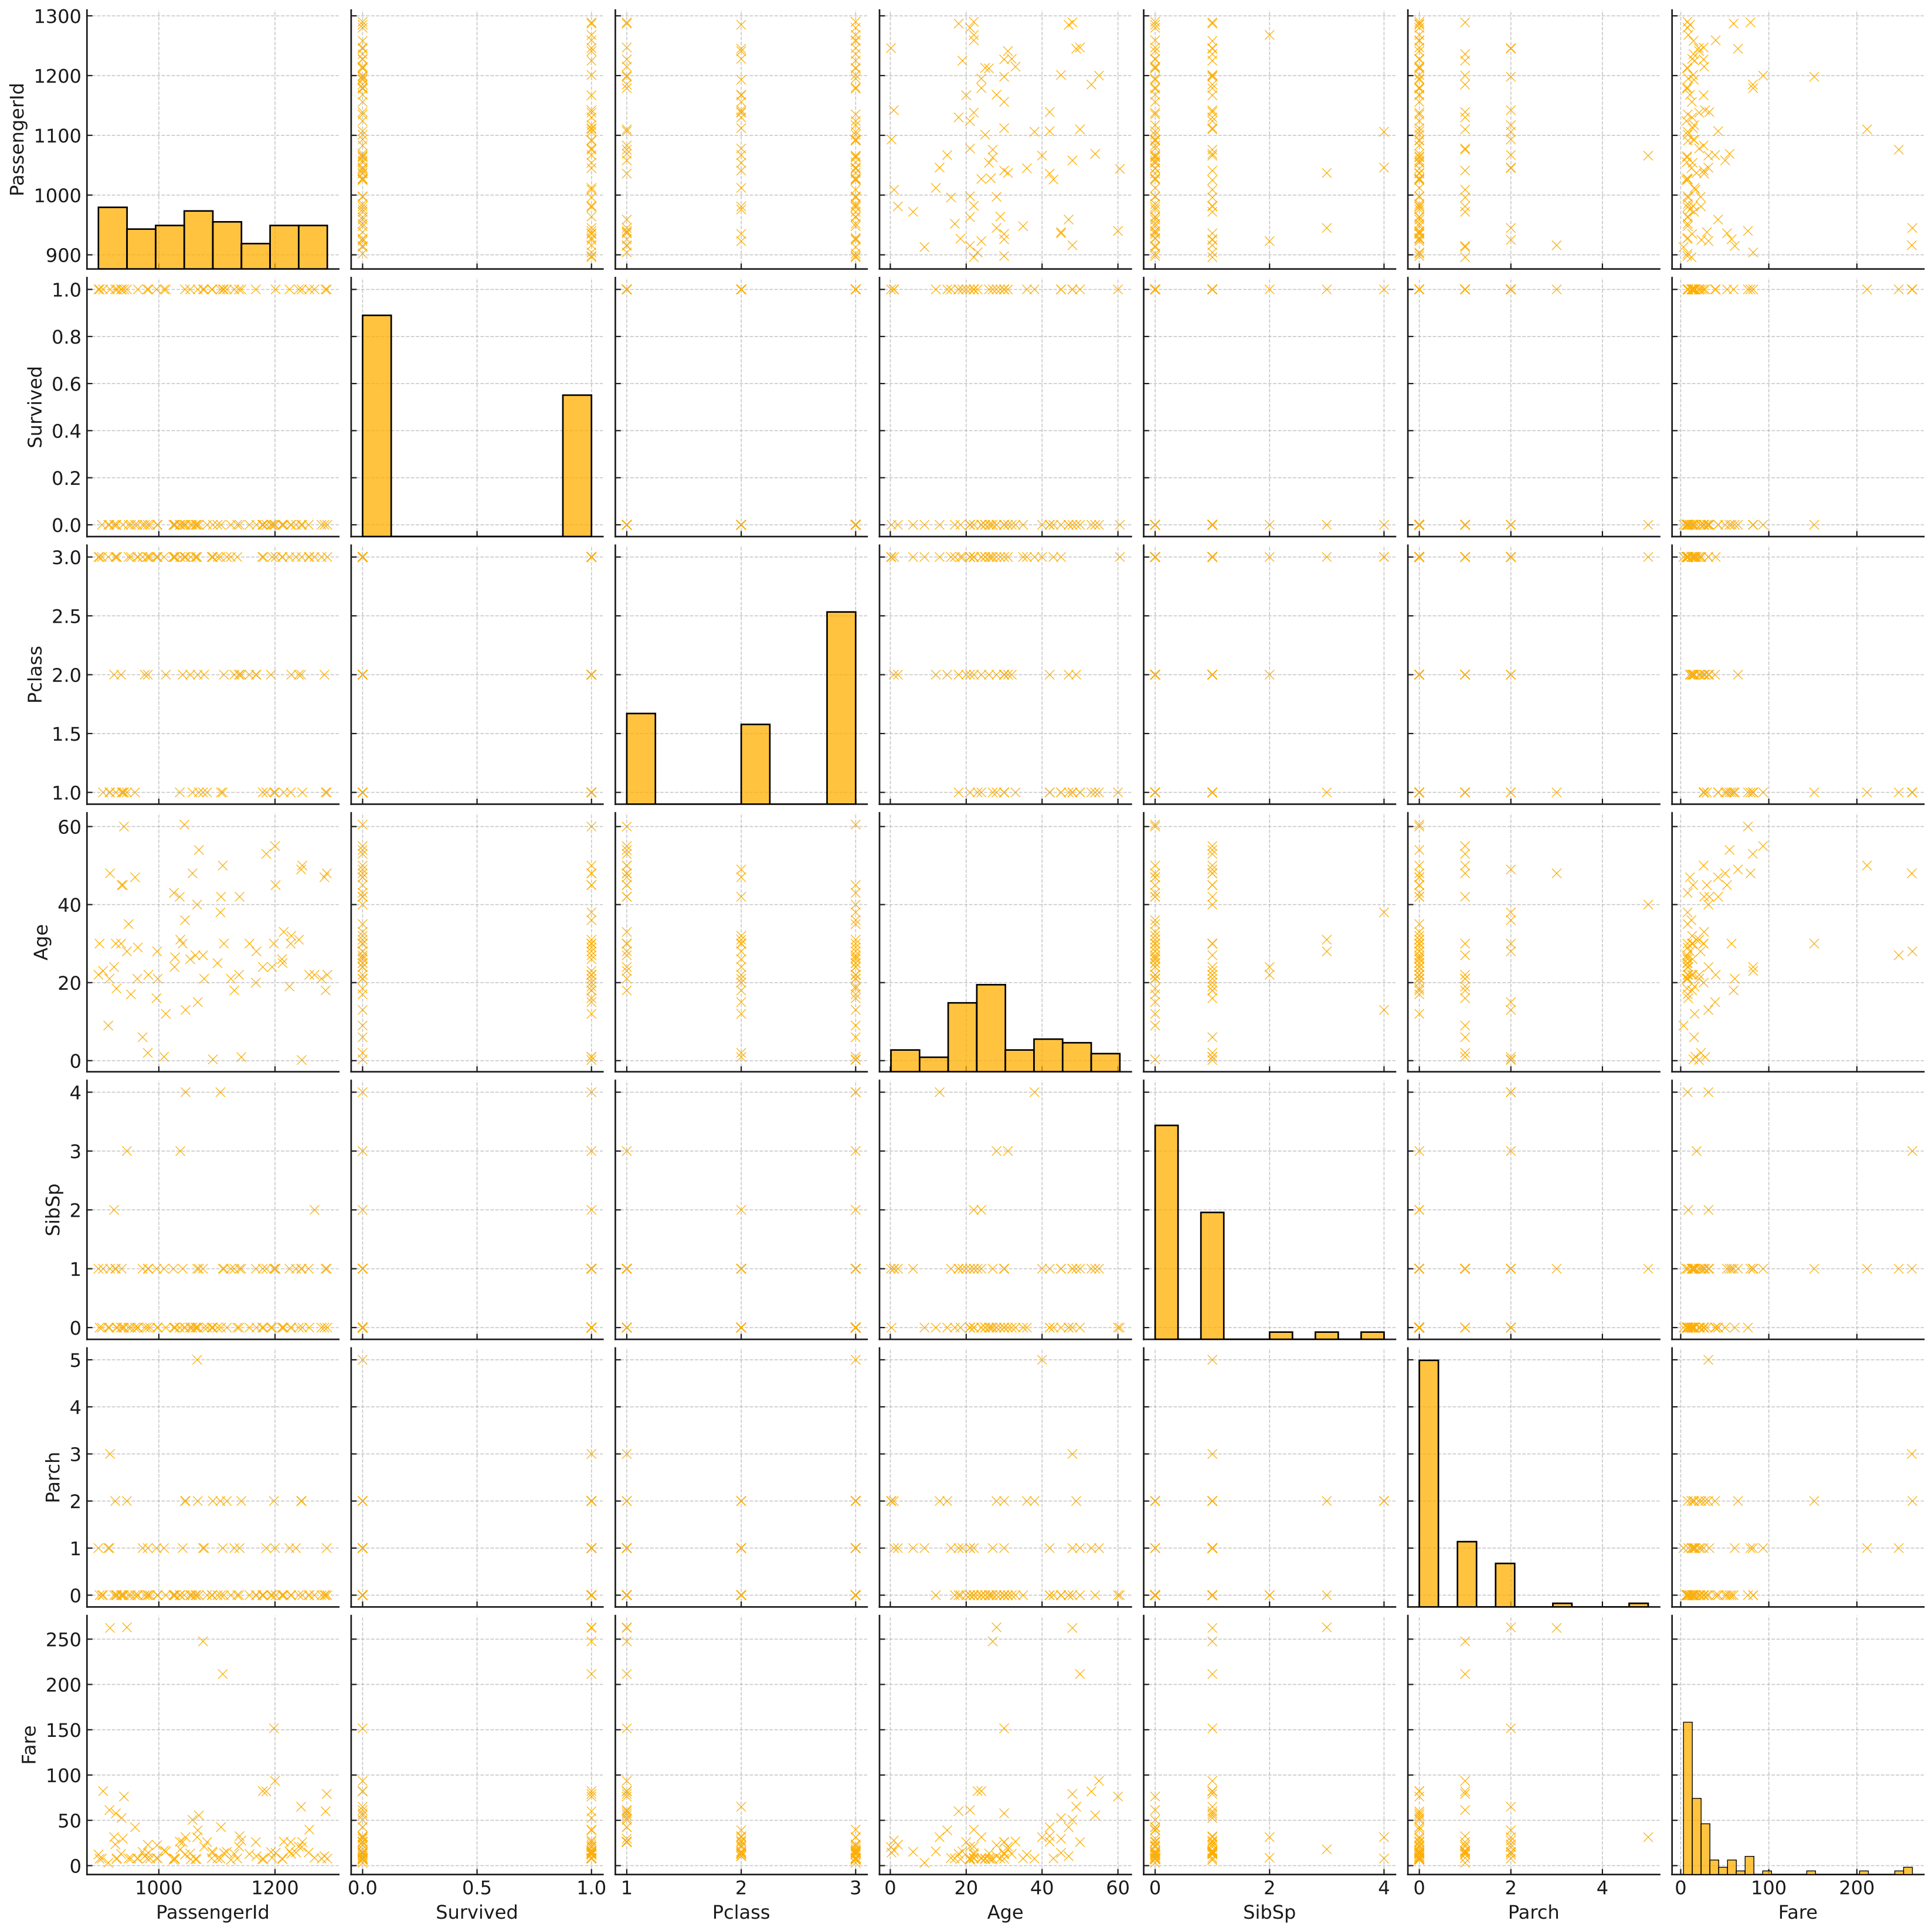

Boxplot of Fare

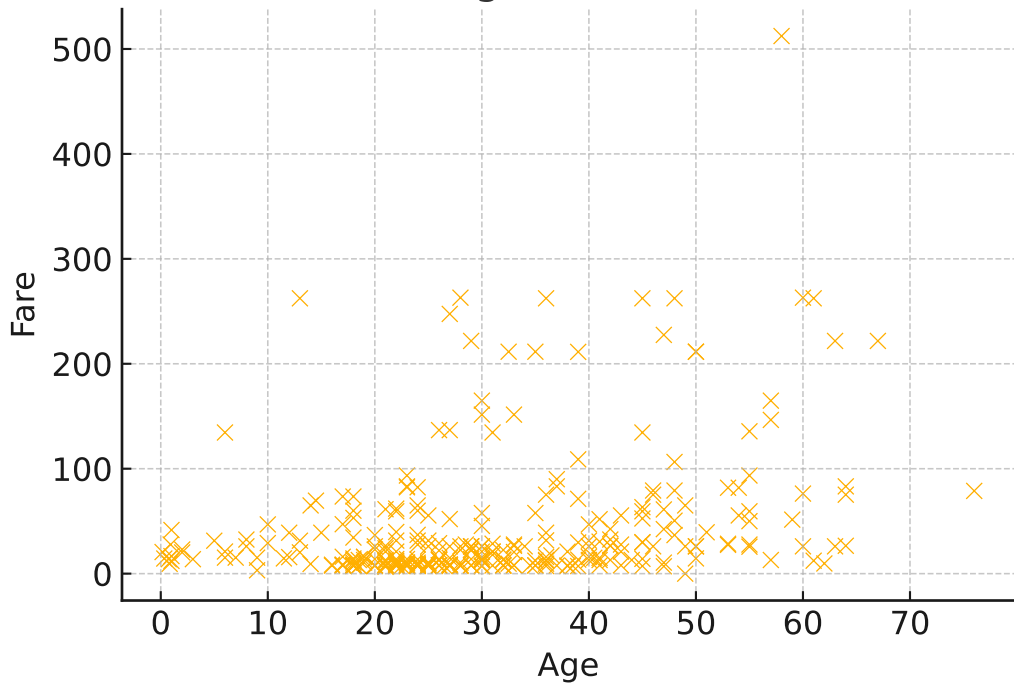

Correlation Heatmap

Age vs Fare

Observations.

1. Some columns have missing values (check heatmap).
2. Age and Fare have moderate correlation.
3. Boxplots indicate possible outliers in Fare and Age.
4. Most numeric features are slightly right-skewed.
5. Correlation heatmap shows strongest correlation is between Pclass and Fare.
